### MANAGEMENT DISCUSSION AND ANALYSIS REPORT

**Pursuant to Clause 49 (IV) (F) of the Listing Agreement, your Directors report as follows :**

#### MACRO ECONOMIC OVERVIEW :

The Indian Economy witnessed 6.5 per cent growth in F.Y. 2011-12 after having grown at the rate of 8.4 per cent in each of the two preceding years. With Agriculture and services continuing to perform well, India's slowdown can be attributed almost entirely to weakening Industrial growth. Monetary policy was tightened by the Reserve Bank of India (RBI) during the year to control inflation and curb inflationary expectation.

On the International front 2011-12 was a challenging year across the global economic and political spectrum : there was sluggish economic growth; recession in Greece for the fifth consecutive year; political instability across the Middle East and North Africa; deepening European crisis and a fragile US recovery. The liquidity infusions by the European Central Bank (ECB) have significantly improved the global financial markets. Nevertheless, an acceptable solution to the Euro Zone crisis is still not in sight. The emerging economies are also witnessing slowdown, largely due to the trickledown effect of the Global slowdown and domestic pressures. The World Bank has predicted a modest global GDP growth of 2.5 per cent in 2012, increasing to 3 per cent in 2013 and 3.3 per cent in 2014.

However the long term economic prospects of India appear bright, compared to most countries of the World. The World Bank has marginally raised India's Growth Forecast for 2012-13 to 6.9 per cent, from its January estimate of 6.8 per cent.
